

ShoreSite Web Designs is a leading web design, development, and management company providing high-end custom websites to businesses across a wide range of industries and practices. With a talented team of Social Media marketers, Search Engine Optimization Specialists, Writers, Developers, and Designers, we offer a full-suite, large-scale experience to our clients that is unlike anything else at the Jersey Shore.

We are looking for a **Front-End Web Designer** to join our small Web Development team. You'll work with our Lead Front-End Designer and Lead Back-End Developer to create **high-quality** custom websites in a variety of environments that will test both your creativity and your technical skills.

Must Be Proficient In:

- HTML
- CSS
- Figma
- Adobe CS (Photoshop, Illustrator, Design, Premiere)
- WordPress CMS
- Video Production and Editing

Additional Skills Desired:

- Javascript
- PHP
- Bootstrap
- Project Management Software (Trello, Jira, etc.)

You will be in direct contact with clients and will be responsible for creating a flawless customer experience from start to launch. You are:

- Able to handle feedback/criticism from clients
- Highly skilled in UX and UI best practices
- Knowledgeable about the right questions to ask clients to make their vision come to life
- Able to adapt to systems in place to hand off and receive projects
- A problem solver
- Professional and self-motivated with an eye for detail
- Able to flesh out abstract concepts into completed projects
- Eager to learn new software and technologies

Our ideal candidate also has at least a surface understanding of other integrated marketing channels including email marketing, social media marketing, content marketing, SEO, and SEM/paid advertising.

We are quickly growing our team and need a team player who is passionate about their craft with a desire to flex their creative muscles. As a small, tight-knit group, we all wear multiple hats and expect the same out of our ideal applicant.
